

Sponge Monsters

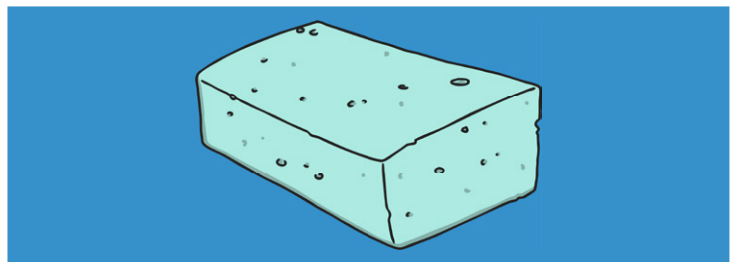

Materials:

- Household sponge
- Pipe cleaners (some cut into smaller pieces by an adult)
- Feathers
- Plastic bags
- Recycled materials
- Coloured paper
- Googly eyes

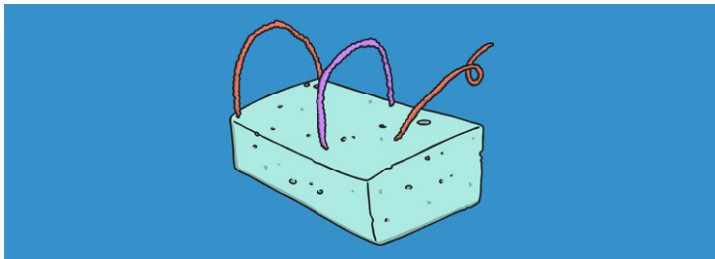

Step 1

Choose a sponge to start your monster.

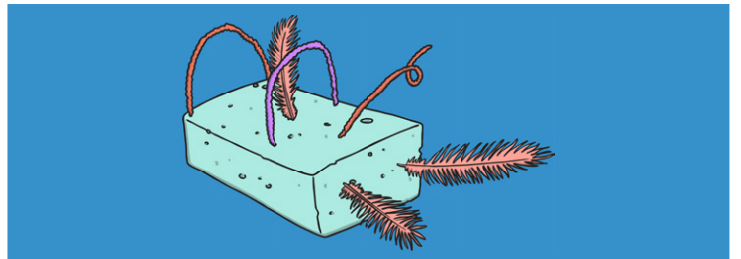

Step 2

Choose which colour pipe cleaners you want to add. Stick them into your sponge. Bend them, curl them, and twirl them into interesting designs.

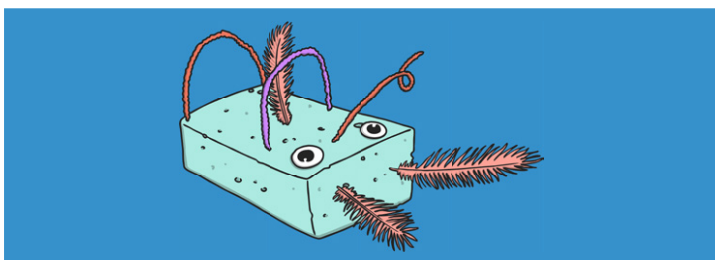

Step 3

Stick some feathers into your monster to make some hair or fur.

Step 4

Use plastic bags, recycled materials, or some coloured paper to cut out some features for your monster. Stick on some googly eyes, or make your own.

Step 5

Stick some short pieces of pipe cleaner into the bottom of your sponge to make some legs. You can bend the ends to create some feet.

Your monster is complete!
