### Re: GCSE Results – August 2025

Congratulations to our Year 11 students for their KS4 achievements.

We are particularly pleased to see fantastic results across the breadth of our curriculum - from Biology, Chemistry, Physics and Combined Science with 170 students achieving grades 7-9, to Drama and Music which both celebrated over 60% of students achieving grade 7+ - we are delighted to see so many of our students having realised their potential and excited for their next steps.

Principal, Clare Cross, congratulated students saying, “We are delighted to celebrate the achievements of all of our students who now have what they need to access the next stage of their education, training or employment, with many progressing into our Sixth Form to study a range of A Level subjects. These results are a credit to your hard work and determination to achieve your best. Congratulations!”

We are extremely proud of the broad and ambitious curriculum we offer which enables students to realise their potential and showcase their talents. High EBacc entry at SRS is not at the expense of excellent academic performance in the creative arts, celebrated today with some great results achieved in Art, Photography, Drama, Media Studies, Music and PE.

We are delighted that the hard work of the past years is reaping its rewards – congratulations to our students who have risen to the challenge and succeeded, we wish them every success and happiness in their next steps.
